

ONC BOCES IT Assessment

What Is It?

This **BOCES aidable service** provides insight into the network environment from a security and technological perspective. There are three areas available for this assessment, each focusing on the security of various network components and user access to the network. Together or individually, these areas will provide you with a snapshot of your current environment, along with recommendations to remediate security and vulnerability concerns.

Information Security Assessment	IT Governance Controls & Policy Assessment	Data Loss Detection Assessment
<ul style="list-style-type: none"> • Virus Protection • Patch Management • Online Banking • Wireless Network • Physical Controls • Infrastructure: Up to 10 devices (routers or switches) • Firewall Checks: <ul style="list-style-type: none"> • Denial of Service Attacks • Application Layer Attacks • Find Open Back Doors and Ports • Buffer Overflow Attacks • TLS/SSL Vulnerabilities 	<ul style="list-style-type: none"> • IT Policy • IT Security Training & Awareness • Computer Hardware, Software, and Data Inventories • Contracts for IT Services • Access Controls • Physical Controls • Online Banking • Service Continuity and Disaster Recovery • Authorization Control 	<ul style="list-style-type: none"> • Email Data Leak / Personally Identifiable Information (PII) • PII on servers, workstations • Workstation Encryption • Mobile Device Management (MDM)

Pricing

Each area is priced individually. There is a discount for purchasing all 3 together.

Information Security Assessment	\$11,000–13,000
IT Governance Controls & Policy Assessment	\$6,500–8,000
Data Loss Detection Assessment	\$3,000 per 100 clients* per location
Bundle any 2.....	save \$500 per school
Bundle all 3	save \$1000 per school

To start the process, call
ONC BOCES Technology Services at 607-286-7715.

What's In The Report

The output of the ONC BOCES IT Assessment is a comprehensive document detailing the security of various network components and user access rights. Some of the document sections include:

- Executive Summary** Project overview, success criteria, project phase, and key findings, as well as short-term and long-term recommendations.
- Evaluation Results** This section includes detailed results and recommendations from the areas you have chosen for your assessment. These areas may include:

Information Security	IT Governance Controls & Policy	Data Loss Detection
----------------------	---------------------------------	---------------------

*We Guarantee
 Our Work*

* A client is a PC, laptop or server.
 Maximum 500 clients per location.
