User agreement for student MiFi use

A MiFi is an electronic device that picks up a cellular internet signal and converts this to a useable wifi signal to connect a laptop/desktop or chromebook to the internet for the purpose of educational instruction.

In accepting this MiFi you are agreeing to adhere to the ONC BOCES Electronic Telecommunications Agreement in the Student Handbook. All students issued computer devices and other equipment such as MiFis are bound by the ONC BOCES Code of Conduct and information contained in the Student Handbook. You must comply with the terms stated in this agreement and the Student Handbook. Failure could result in disciplinary consequences and repossession of any ONC BOCES property.

MiFis can only be utilized for program specific tasks, assignments, and functions and not to be used for non-school related functions. Students are prohibited from using MiFis for personal reasons and must abide by the Access to Electronic Telecommunications language contained in the Student Handbook.

Students have no expectation of privacy for any activity recorded using the MiFi, which is considered school property, regardless of location of any ONC BOCES equipment.

Each student must take extreme care and caution when handling their MiFi. The student will be responsible for the reasonable cost of repair or its replacement cost should intentional or negligent damage occur. All MiFis have been inspected and found to be in working order with no damage prior to it being issued to the student. Damage must be reported to administrative personnel immediately.

Jason Sanchez, Director of Innovative Programs

Ryan DeMars, Principal of the Otsego Area Occupational Center (OAOC)

Parent/guardian must sign below upon receipt of Mifi device indicating they have read the above user agreement, discussed with their child and will abide by its terms:
